Sprint Plan # 3

Context: Tools for Software Engineering
Group: Rubber Duck Debuggers
Estimated Effort per Task scale: 1 - 5

User Story	Task	Member respon-sible for the task	Task Assigned To	Estimated Effort per Task (per assignee)	Priority (A-E)
As a user I would like to have an option menu in which I can put my preferences with respect to privacy and scope of logging of the extension	*Implement* the Controller	Maarten	Maarten	1	A
	Implement Settings class	Mitchell	Mitchell	3	E
As a user I would like to have that the extension shows me when it is active So that I am aware that my pull request behavior is being recorded	*Implement* that the extension only logs when the user is in a PR	Maarten	Maarten	2	B
	Implement that the icon shows whenever the extension is active	Robin	Robin	2	D
As a developer I want to collect sufficient and diverse data So that I can deduce reliable information and useful advice	*Implement* a number of user-triggered events that will monitored and saved	Mathias	Mathias	3	B
			Robin	1	
As a user I want that the system that I'm using has been fully researched well on how to develop it	*Research* which semantic elements are needed	Youri	Youri	4	C

The baseline for the relative estimated effort is "Implement the Controller", as it is definitely the smallest task.

In addition to this document, we've provided a 'Definition of Done' in the Product Planning document in order to be precise on when to consider a task as done. The types of the tasks have been underlined. We'd like to refer the reader to this document, if any of the provided tasks above is not entirely clear yet.

Member	Total effort per member
Maarten	3
Mathias	3
Mitchell	3
Robin	3
Youri	4
