Sprint Plan # 6

Context: Tools for Software Engineering
Group: Rubber Duck Debuggers

User Story	Task	Member responsible for the task	Task Assigned To	Estimated Effort per Task (per assignee)	Priority (A-E)
As a user I want a toggle button in the Octopeer menu for switching Octopeer on/off So that I can easily start/stop Octopeer from logging data	#80 _Implement_ the loggingEnabled backend	Maarten	Maarten	1	A
As a developer I want to be able to efficiently filter which types of events should not be logged	#84 _Implement_ the frontend for DoNotWatchOptions	Robin	Robin	3	A
			Youri	1	
As a user I want to change the options without having to use a submit button So that it is easier to make changes	#89 _Improve the usability of saving options (see suggestions in GitHub issue)_	Mitchell	Mitchell	2	D
As a developer I want to be able to track when a user starts watching and stop watching a PR So that I can use this data	#96 _Implement_ watch PR and stop watch PR event bindings	Youri	Youri	3	A
As a bug I want to be fixed	#32 _Bugfix: The event handlers are not attached to dynamically generated DOM elements (e.g. inline comment box)_	Maarten	Maarten	2	E
	#97 _Bugfix: Fix NameElementSelectionBehaviours_	Mathias	Mathias	2	B
	#98 _Bugfix: Fix TextFieldElementSelectionBehaviour_	Mathias	Mathias	1	B
As feedback I want to be resolved So that the codebase looks better	#91 _Refactor Options.js_	Robin	Robin	1	C
	#95 _Move ElementSelectionBehaviours and ElementEventBindings to separate class_	Mathias	Mathias	2	B
			Maarten	1	
	#94 _Refactor the Options class_	Mitchell	Mitchell	2	C
	#93 _Rename all interfaces consistently_	Maarten	Maarten	1	D

The table is separated by a big black border to make a clear distinction between real user-stories and bugfixes and feedback resolving.

The baseline for the relative estimated effort is "Rename all interfaces consistently", as this task is the smallest task.

In addition to this document, we've provided a 'Definition of Done' in the Product Planning document in order to be precise on when to consider a task as done. The types of the tasks have been <u>underlined</u>. We'd like to refer the reader to this document, if any of the provided tasks above is not entirely clear yet.

Member	Total estimated effort per member
Maarten	5
Mathias	5
Mitchell	4
Robin	4
Youri	4
